## CALL FOR HOSTING 2023 EAHN THEMATIC CONFERENCES

***DEADLINE EXTENDED TO 16 DECEMBER 2021***

Since 2011, the European Architectural History Network has collaborated with institutions across the world to organize smaller, more focused thematic conferences and seminars. These events are intended to raise the international profile of the Network through local collaborations and to promote inclusivity and interdisciplinarity. They are smaller events in alternate years, focused on a clearly defined theme but still aimed at an international audience.

EAHN is looking for institutions willing to host thematic conferences for 2023. The application should be addressed to the EAHN Board ([secretary@eahn.org](mailto:secretary@eahn.org)) by 16 December, in time for discussion at the 2022 Winter EAHN Business Meeting. Guidelines for hosting a thematic conference can be found on the EAHN web site: <https://eahn.org/conference/>.
